CALL FOR PAPERS

The 10th International Conference on Advanced Materials and Systems

The 10th International Conference on Advanced Materials and Systems (ICAMS 2024) is a major international conference in the area of Materials Science, intending to bring together eminent scientists, technologists and young researchers from several disciplines, across the globe, to provide a common platform for discussing their achievements and newest directions of research. ICAMS 2024 conference is focused on Advanced Materials and Systems and recent developments in material science and technology, covering fields from theory and experiment to industrial practice. The thematic sessions will be spread throughout two conference days. Participants will receive information regarding access to the platform in due time. The authors will be asked to submit a 10-minute video presentation of their paper and should be available online on the conference day for a maximum 5-minute Q&A session.
